THE FOUNDATION FOR A BETTER LIFE®

The mission of The Foundation for a Better Life, through various media efforts, is to encourage adherence to a set of quality values through personal accountability and by raising the level of expectations of performance of all individuals regardless of religion or race. Through these efforts, the Foundation wants to remind individuals they are accountable and empowered with the ability to take responsibility for their lives and to promote a set of values that sees them through their failures and capitalizes on their successes. An individual who takes responsibility for his or her actions will take care of his or her family, job, community, and country. Pass It On.

LOVE Pass It On:

My grandmother passed away on Christmas Day 2002. She was 68 years old and had multiple health problems. A few days after her funeral, I was at her home with my grandfather. We were looking at a wall of pictures they have in the den. He picked up a picture of him and his wife on their wedding day. They were both young, slim, beautiful, happy people. He looked at that picture and then he looked at me and said, "This is how I saw her every day of my life." At that moment, I understood what love is.

Cut the bookmark out along the solid line, then glue back to back, laminate and Pass It On.
